

Market stalls in Covid times

Booth designs to keep us safer

Yes, even plants

Shower curtains go public

Plexiglas to the rescue

Tables in front

More tables

Signs to the front

Cords and signs

Signs high and low

The conveyor belt

Product protection

Timely hints

Where should you Square?

- The dock at the bottom of the photo can be set forward on a table with the reader shown at the top of the photo. You can change settings so no signature is required.
- If you use the small swiper, you have to be too close to your customer or take their card from them. Sometimes it takes multiple tries to swipe it.

Every booth needs one
