Solarize Program to benefit Ten Rivers Food Web's That's My Farmer Program

"Go solar in the month of August and help Ten Rivers Food Web increase low-income access to healthy, locally grown food at farmers' markets. Abundant Solar is donating \$100 to Ten Rivers Food Web for each 1,000 watts of solar signed up for in the month of August from Benton, Linn and Lincoln County residents. Help us reach our goal of 15,000 watts and we'll donate \$1,500 to TRFW. It's never been a better time to go solar, and help out a great organization at the same time."

How It Works:

Abundant Solar will make a donation of \$100 to Ten Rivers Food Web for each 1,000 watts of clean renewable solar energy that Benton, Linn and Lincoln County residents sign up for with Abundant Solar during the month of August 2012. **Mention "Ten Rivers Food Web" or "That's My Farmer" to make the purchase count toward the donation.**

Solar Information:

The typical residential system size is 3 kilowatts. A reasonable goal would be 5 systems for the month of August, raising approximately \$1,500 for Ten Rivers Food Web, depending on system sizes.

About the That's My Farmer SNAP Incentive program: By raising funds for SNAP incentives at farmers' markets, Ten Rivers Food Web helps improve access to local, nutritious foods for low-income customers, increases sales for local, farm-direct growers and supports local communities by keeping a greater proportion of federal food assistance dollars circulating here.
